Payments can be accepted via card, paypal, cash, cheque or Bacs. Balances paid 2 weeks before course date.
<b>Course Information:</b>	MLD is a highly specialised form of massage. It involves using light pressure with very rhythmical and very precise hand movements. These techniques, when used along with light pressures and in sequences, working along the surface of the skin can influence the direction and speed of lymphatic flow, re-directing if necessary.  The therapist will have developed a great degree of skill in lightness of touch as well as a deep knowledge of how the lymphatic system works. The aim of the MLD therapist is to bring balance to the tissues. If there is too much fluid in the tissues, they become soft and spongy to the touch. If excess fluid is present it can interfere with cell nutrition – oxygen and nutrients will take longer to pass through the tissues and get from the bloodstream to the cells through the interstitial fluid. This will also mean that waste products from cell metabolism will take longer to move from cells to the transport system, which will remove them from the body. If the lymphatic system is functioning well, we feel well.  There are many reasons for the Lymphatic system to be sluggish and not functioning well, leaving fluid static in the tissues. Pollution, toxins, poor

**ITA Approved Provider with Accredited Courses**

nutrition, mucous formation, overload from previous viral or bacterial infections etc – these are all things that can give rise to cellular stagnation

**Course Manual  
Contents  
Include :**

- Copyright, Insurance, Tax & Accounts
  - Manual Lymph Drainage (MLD) Massage
  - What is Manual Lymphatic Drainage
  - How does MLD work
  - Anatomy of the Lymph System
  - What is Lymphedema/Lymphoedema
  - Benefits of a MLD Massage
  - Contra-Indications for MLD Massage
  - Routines
  - Client Consultation Form & Data Protection
  - Consultation Form Template
  - After Care Advice Template
  - Using Aromatherapy Oils & Waxes during Massage
  - Common Foot Problems
  - Health & Safety Law, Licence Requirements
  - Infection Control
  - Sensitivity Testing
  - Therapists Code of Practice
  - Anatomy with a reference manual supplied for ongoing learning
- 
- Front of body
  - Back of body

**Practical  
Modules to be  
completed**

**ITA Approved Provider with Accredited Courses**
